### PROFESSIONAL EXPERIENCE

#### QA Engineer | Nayax Retail LTD

Feb 2024 - Jul 2026 | Ukraine | Hybrid

- Tested web applications, POS software, backend services, and data flows in multi-tenant systems.
- Performed functional, regression, smoke, UI/UX, and API testing; prepared and maintained test cases.
- Created actionable bug reports in Jira and verified fixes across releases.
- Used Swagger, Chrome DevTools, SQL/MySQL, Microsoft SQL Server, and logs to investigate defects.
- Collaborated with developers and product teams to clarify requirements and reproduce issues.

#### Technical Support Specialist | Nayax Retail LTD

Jul 2021 - Jan 2024 | Odesa, Ukraine

- Investigated software and hardware incidents for retail and POS systems.
- Reproduced issues, analyzed logs and database data, and documented findings for engineering teams.
- Installed and configured POS devices and coordinated issue resolution with technical teams.

#### Technical Support | KTS Monitoring

Sep 2020 - Jun 2021 | Odesa, Ukraine

- Provided technical support and troubleshooting before transitioning to Nayax.

### EDUCATION

#### Computer Engineering Surveying

Open International University of Human Development 'Ukraine' | 2017 - 2020  
Odesa State Agrarian University | 2009 - 2014
